

LUGGAGE REMINDER

ADVENTURE EXCURSION IN THE LAND OF THE

CARIBOU

In order to facilitate luggage transportation, please bring only what you need for the night and put it in a sport bag without wheels.

Things to carry in your luggage:

- ❖ Comfortable shoes for the walk in the forest (a pair of leather boots in good condition would be suitable too).
- ❖ Rubber boots when rain is expected (you can also bring plastic bags that you can insert in your leather boots and this will keep you dry).
- ❖ Personal belongings as tooth-brush, hairbrush, pills or else.
- ❖ A raincoat kit.
- ❖ Sunscreen.
- ❖ Hat or head cap in order to protect you against sun rays or against rain.
- ❖ Warm clothing. Even if the forecast gives us warm days sometimes the nights are quite cooler.
- ❖ Lighter shoes for the evening.
- ❖ Information guides on fauna and flora and binoculars (if you have these articles).
- ❖ Insect repellent.

You won't have to carry the major part of your luggage for the whole excursion. However we recommend bringing along with you a back pack in which you can carry your camera, bottle of water, raincoat and other things for the day.

You will find in your prospector tent: a bed consisting in branches of fir-tree equipped with a small mattress, sleeping bag, pillow, pillow case, towels and face cloths, body soap, little wood stove, wood to warm you up and a bedside table.

Please note that it is strictly forbidden to bring alcoholic beverages.

Enjoy your stay with the caribous!
